User Requirements – Personal Habit Tracker

This document summarizes the user requirements gathered from interviews with Students, Working Professionals, and Travelers.

Student Requirements

- Track study habits (e.g., "Study 2 hours daily", "Submit assignments on time").
- Receive daily study reminders.
- View visual progress (charts, graphs).
- Get positive reinforcement messages for achieving goals.
- Prefer simple daily checklists.

Working Professional Requirements

- Track work habits (e.g., "Finish 2 important tasks", "Check emails every morning").
- Receive morning reminders to start work routines.
- Weekly summary reports to review productivity.
- Prefer small number of habits (2–3).
- Potential future integration with Google Calendar or Outlook.

Traveler Requirements

- Track travel goals (e.g., "Plan next trip", "Visit new place every month").
- Set step-by-step planning goals (e.g., Book flight, Book hotel).
- Receive booking reminders.
- Save favorite destinations (travel bucket list).
- View progress with trip checklists or timelines.

Summary

The Personal Habit Tracker will support:

- Customizable habit creation tailored to different user types (students, professionals, travelers).
- Daily and/or weekly reminders based on habit type.
- Visual progress tracking (checklists, graphs, and summary reports).
- Motivational messages for user engagement and encouragement.
- Simple, intuitive design optimized for both **mobile** and **laptop** devices, ensuring a smooth user experience across platforms.
